BRANDS OFFER UNJUSTBritish Officials in Dublin, However, Still See  
Hope for Ultimate Settlement of Problem.BY THE ASSOCIATED PRESS.  
London, August 16.—All soldiers on leave from Ireland in Aldershot and Farnborough have been ordered by telegraph to return to their regiments immediately.

Immediately on promulgation of the truce in Ireland large groups of soldiers were granted leave of absence in England.

A Belfast dispatch of Monday quoted The Irish News, the national organ, as claiming to have unquestionable authority for stating that the British government preparation for a renewal of the conflict in Ireland, consequent on the possible abrogation of the truce which has existed since July 11, had been speeded up within the last three days to such an extent that they were virtually completed.

BELFAST CONFIRMS.  
Belfast, August 16.—(By the Associated Press)—It is reported here that the military authorities in Ireland have cancelled all leaves of absence for both officers and men and that all officers and men who are away on holidays have been recalled. It is stated this step was taken merely as a precaution against surprise and has no other significance.DAIL EIREANN  
IN FIRST SESSION.  
Dublin, August 16.—(By the Associated Press)—Complete independence for Ireland remains the demand of the leaders of the Sinn Fein.

At the opening of the Irish republican parliament today, Eamon de Valera, the republican leader, in an address to the members, declared that for Ireland, he and his colleagues stood for ideals embodied in the American Declaration of Independence. He reiterated Ireland's claim to separation from the British empire and asserted that the cabinet of the republican parliament was the sole government of the Irish people recognized.

Referring to the peace negotiations with David Lloyd-George, Mr. de Valera said there were people who desired to negotiate to save their faces. The Sinn Fein, however, would negotiate only to save possible bloodshed and for right and principles. He declared that the cabinet in refusing the offer of a dominion form of government by Mr. Lloyd-George had taken this step because it considered his proposals unjust.

McNeill Speaks.  
Mr. de Valera's address was listened to attentively by the 130 members of the Dail Eireann, gathered from all parts of Ireland. It was delivered after Professor John McNeill had been chosen as speaker of the parliament. Mr. de Valera promised that at the session tomorrow he would outline the negotiations he had carried on with Mr. Lloyd-George and afterwards the parliament might consider the situation behind closed doors.

Notwithstanding the attitude of the members of the Dail Eireann in taking an oath of allegiance to the Irish republic, an oath which in former days would have been termed high treason, and De Valera's reiterated demand for the freedom of Ireland, British civil officials in Dublin, many of whom assert that they have channels of communication with the inner workings of the Sinn Fein, are still hopeful of a settlement of the Irish problem.

These officials tonight based their hopes on one section of De Valera's speech, in which he said:

Oaths Election Votes.  
In the general election, which in effect was a plebiscite, the question

Washington, August 14.—Representative Herrick, republican, Oklahoma, today proposed a bill intended to solve the government's financial problems. It provides that holders of a Liberty bond or certificate of indebtedness of the United States, shall be given United States circulating notes for the full face value of the bonds or certificates held.

The gathering was held at the residence of Dr. Allen H. Bunce, at 78 Forrest avenue. Dr. Bunce decided to hold another meeting as soon as the committee could deliberate and confer with the property owners on their wishes in the matter.

Barrel of Poison  
Mistaken for Flour  
Brings Three Deaths

Laredo, Texas, August 16.—Investigation into the origin of a substance thought to have been potato flour, which when made into bread here Saturday, resulted in the death of three persons, disclosed today, according to authorities, that the supposed flour was part of a barrel of poison which arrived here by freight recently without a label and bearing no address.

BOARD'S FINAL ANSWERUnderstood Effort Was  
Made to Get Labor to  
Accept Sims' Communi-  
cation as Reply.

Formal answer of the board of education declining to state a reason for dropping Miss Julia Riordan as a teacher in the Atlanta public schools, is now in the hands of the legislative committee of the Atlanta Federation of Trades.

The report to the federation is that a reason given the Atlanta Public School Teachers' Association, and was received by Jerome Jones, chairman of the legislative committee, who acted as spokesman for the labor delegation in requesting the board to disclose its grounds for dismissing the instructor.

The federation is told that "it was competent for the board to elect or refuse to elect in any instance. In Miss Riordan's case she was not re-elected. The members of the board who voted against her did so for reasons which they then and now consider good reasons. It would do no good, and would on the contrary do harm, if the board should go into this matter in a public way."

Have Refused Reasons.  
Since the board removed Miss Riordan at a secret meeting in June, following an attack led by Commissioner Carl Hutchison, the mysterious reasons for her removal have been sought by the ousted instructor, by the teachers' association, of which Miss Riordan was a member, and by the Federation of Trades, to each of whom the board replied that every member who voted against retaining Miss Riordan was competent for the board to elect or refuse to elect in any instance. In Miss Riordan's case she was not re-elected. The members of the board who voted against her did so for reasons which they then and now consider good reasons. It would do no good, and would on the contrary do harm, if the board should go into this matter in a public way."Affidavits Are Destroyed.  
Later when Miss Riordan demanded to know their contents, Mr. McCalley destroyed the papers and declared that he had no recollection of what they contained. It was learned through an unquestioned source, however, that they charged Miss Riordan with sending girl pupils to their homes in the care of the negro janitor at the Davis Street school.

This charge was flatly denied by Miss Riordan.

Last Wednesday night the labor delegation failed to make a report to the federation, the only gathering requested of Jerome Jones that night, he held in abeyance until this week, following his statement that he had learned from an authoritative source that an answer setting forth reasons would be forthcoming from the board.

It is understood that officials of the federation have been approached to know if the published statement of Councillor Walter A. Sims last Sunday giving his reasons for voting against Miss Riordan would be accepted as a satisfactory reply of the board, and the officials answered that individual reasons would be more appropriate as constituting a reply of the board.

It is also understood that the reply in the hands of Mr. Jones will stand as the final answer of the board to the question.

The night session of Recorder's court was made necessary by the activity of the crusade against traffic and speed law violators. For two days, Recorder Johnson was given opportunity to transact little business that was not operated by clutch and carburetor. He decided that he must burn the near midnight oil to ease the condition of his docket, which was threatening spontaneous combustion due to its crowded condition.

#### SHOOTING AT EL PASO

**Mexicans Fire on Texas Policemen Across Border.**

El Paso, August 15.—According to a statement made public by Chief of Police Peter Edwards, most of the Mexican side of the Rio Grande late today fired upon El Paso policemen who had rounded and were trying to capture Ettamelio Lopez, a service driver, after a pistol fight at the end of South Main street. Lopez, the chief, was shot when El Paso policemen started to place Lopez under arrest. Joseph Castillo, who completed that Lopez had abandoned his truck, ran to the river and began firing.

Policemen spread in fan shape to surround Lopez, who finally was captured. The English and anti-Mexicans had gathered on the Juarez bank of the Rio Grande, and according to the chief, they told him to shoot Lopez. When the officers persisted, the Mexicans began firing and continued shooting at Lopez, who was shot through the heart. Chief Edwards, although he was not present, said that Juarez officials had promised to make an investigation.

#### De Valera and Lloyd-George Find It Desirable to Put Proposals to Deciding Vote.

**WRITER INTERPRETS IRISH SITUATION**

In the following the United News presents a story interpreting the Irish situation by A. E. Johnson, United News staff correspondent in London, who has just returned to this country.

It reveals for the first time the human elements that are bearing toward peace in the return of the hunted members of the Irish republic army to their homes, and other elements which well-informed authorities believe will result in ultimate settlement without a return to the hardships known prior to the truce.

#### Terrors of Martial Law.

Martial law did not weigh so heavily on the rural districts but the towns, the English and anti-Mexicans, know its terrors, and now also know the calm of peace.

Also, it is said to be an element in Sinn Fein which believes that Sinn Fein has drawn upon the final reserves of "outside sympathy."

At the beginning of the peace negotiations the entire world prayed devoutly for peace. Some, consequently, may wonder why Ireland's champions may be expected to gradually slip away.

#### From the British Angle.

Nothing can remain to an Irish settlement in Lloyd-George's program. He desires to accomplish this above all else. Next, he wants to show that England's terms are unfair and constitute aggression. Finally, he wants Ireland's champions to be gathered to Dublin.

Altogether it was a gathering without frills, but full of earnestness.

The clerks had difficulty in announcing some English names such as that of Ernest Chittenden, one of the Gladstone chancellors, whose name would not bear translation into Irish.

There were many prominent persons present in the audience, and some notable absentees. Joseph Devlin, who was elected a member, was in town, but he spent the day in the company of friends and did not answer the roll call. With the exception of Mr. de Valera, who was elected from Down, and Mr. Dillon, a member from Armagh, the other representatives from Ulster absented themselves.

**PETER OF SERBIA DIED ON TUESDAY**

Aged Monarch Succumbs After Long Illness—Congestion of Lungs Given as Death Cause.

Belgrade, Jugo-Slavia, August 16.—By the Associated Press.—King Peter, of Serbia, died today.

King Peter, who for a long time had been ill, was reported early in June to be in a serious condition. He was then suffering from pleurisy. A short time afterwards he was said to be steadily improving in health and his physicians declared him out of danger.

Nothing was heard of the aged monarch until a few days ago, when a dispatch from Belgrade said he was seriously ill, with congestion of the lungs. He sank into unconsciousness Friday, remaining in that condition until the following day. His condition became worse Sunday night and he gradually failed until the end.

According to reports, White left Atlanta several days ago en route to points in the east; his baggage was checked through and in a suitcase was found a Spanish-American war pistol known as the gun was loaded, it is said. In holding the baggage, a negro porter in dropping the suitcase caused the concealed gun to be discharged, the bullet tearing its way through the lining of the bag and into the king's stomach. He died from the wound, and, following a verdict of manslaughter by the coroner's jury, Mr. White was indicted and brought back to the city pending action by the grand jury.

Watson, Representative Charles E. Brand interested themselves in White's case immediately, taking the defense and the killing of the defendant and that the charge possible to be made was one of involuntary manslaughter—the killing of a person by the commission of an illegal act, the pistol being concealed in the bag and, therefore, in violation of the law.

Senator Watson stated that he did not consider the case worthy of prosecution. Upon learning that White was a Georgian on a visit to the state, Senator Watson arranged with the senator tendered his legal services and says that he will personally conduct the defense before White's trial. The senator also volunteered to release him on his own recognizance. Judge Brand called to see White at the jail and said he would be retained by the senator in defending him when the case is brought up for trial.

In the preliminary hearing this morning before the police court bail was assessed at \$1,500, which it is understood, can be made by commutation with the sheriff. Georgia District officials stated today that they had referred the case to the district attorney and would await his decision.

The message said details of the new offer would be sent by mail and those who wanted to know more about it could do so by writing to the secretary. It added that the bidder did not desire any publicity given him in connection with the offer.

Secretary of State Herbert Hoover conferred for several hours over the Ford proposal without reaching a final decision. It was agreed, however, that it would be difficult for two laymen to act on a matter involving millions of dollars when several experts had been employed to study the details and technical phases of the bid.

Until the experts report, the secretary said, no final decision would be made, adding that it would take some time for them to report.

The Birmingham message said the plan and dam would be operated on a 50-50 profit-sharing basis instead of the yearly payment stipulated by Mr. Ford.

White guarantees to pay all water power "used by us" and to sell surplus power to other interests at reasonable price" was contained in the note.

Reference to use of water was construed as indicating that the offer came from a company already operating and using such power as the dams at Muscle Shoals would develop.

The bidder added that his undivided profits accruing from operation of the proposed plant would be given to the government several million dollars annually and would have the approval of all farming interests.

"Will meet Ford's offer for purchase and operation of all plants, and will operate hydroelectric plants when compensated on a profit-sharing basis instead of stipulated yearly payments. Will charge off 3 per cent interest on investment for all power produced on the dams etc., before dividing profits. Will guarantee to pay reasonable amount for all power consumed by present hydroelectric plants and sold by us and sell surplus power to other interests at reasonable price. This should net government profits of several million dollars after approval all farming interests. Please wire acknowledgement receipt of proposal. Am mailing further particulars."

## Bridge for Mrs. Fink.

Miss Addie Harper was hostess at a bridge-table Tuesday afternoon in compliment to Mrs. Boyd Fink, a recent bride.

Bright flowers in vases and bowls were arranged over the tables in rooms where the game was played.

The tea table in the dining room was adorned with a fillet lace cover, the center of which was a pink bowl of pink and white dahlias.

The color motif of pink and white was further carried out in the bouquets and center pieces.

The prizes were dainty pieces of lingerie and hand-made linen guest towels.

Miss Harper received her guests wearing summer frock of white crepe de chine.

Miss Fink was gowned in white Canton crepe and wore a becoming leghorn hat.

The guests included Misses Lillian Bradford, Jean Harpe, Kathleen Simpson, Rowena Simpson, Zadia Stewart, Agnes Coleman, Mary Sims, Minnie Arnold, Sallie Thornton, Eleanor Harper, Mrs. Fred Stewart, Mrs. Guy Osman, Mrs. M. H. Driggers, Mrs. J. J. Simpson, and Mrs. William Kollar.

## Mrs. Newton Wing And Mrs. Carlisle To Be Hostesses League of Women Voters Discusses Coming Election

Informal talks, mostly in regard to matters connected with the election on August 28, will be made by the members at the luncheon of the League of Women Voters, held yesterday at the Chamber of Commerce temple, which was splendidly attended.

Mrs. J. T. Stephenson, chairman of organization for the league, presented the program to the women voters who had been endeavoring to learn all possible regarding the candidates and what they stand for. The luncheon, which was held yesterday at the temple, was the second meeting of the league, which would be held on Friday afternoon at 2:30 o'clock, in the auditorium of the chamber of commerce.

Mrs. Hubbard spoke of the work of the Civic Forum, setting forth that, as its name implies, it is an organization to discuss the problems of the city, and that the members of the forum have a definite purpose for the city committee; and now the civic forum is a factor of great importance that interests the citizens of Atlanta.

"In addition," said Mrs. Hubbard, "we studied our political record, every man who seeks office, and on Friday afternoon Mr. Walker, chairman of the forum, will have a definite account to give of every organization feel a delicacy in discussing or handling; an organization is not a political committee; and we are anxious for the bottom of every question that interests the citizens of Atlanta."

"Well, I'm just going to leave the first four and let you speak the rest," she said.

Mrs. Turner will address a meeting of the sixth ward women on Thursday afternoon on "The Primary." Miss Corrigan, principal of Highland school, was invited to speak, and stated that the school in ninth ward is also held in esteem for the League of Women Voters.

"Our school is 100 percent strong in membership with the League of Women Voters, and the school in ninth ward is also," said Miss Corrigan. "I believe the teachers are in sympathy with the League of Women Voters, and I have heard them speak in the highest terms of admiration for this organization and the work it is endeavoring to do."

Other speakers were Mrs. K. W. Brittain, editor of "The New Citizen," Mrs. F. T. Tracy, Mrs. M. L. Barker, president of the Moreland Avenue Parent-Teacher association, and Mrs. Charles P. Ozment, president of the state organization of parent-teachers, who upon request, touched upon the matter of co-operation between the parents and the schools.

Miss Raoul explained that the league is not organized to be a political organization and that the members probably attach unusual and unnecessary significance to the name of the committee elected to the executive committee. As a matter of fact, we are not emphasizing this matter, said Mrs. Raoul. "For instance, things come under the jurisdiction of this committee and we need intelligent, progressive and thoroughly capable members."

Miss Raoul explained that the league has sent out a letter to the members of the committee asking that the executive committee—*to take effect two years hence*—be reorganized.

Lovely visitor was the bridge-lunch guest Tuesday morning given by Mrs. S. W. Foster.

Pink was the predominating color in the artistic decorations. Quaintly dressed in pink, the ladies were arranged in silver baskets and roses.

Each guest was given a dainty piece of linens and a pair of silk hose was awarded top score and the consolation prize was two dozen of cards.

Covers were placed for twelve guests.

Mrs. Barnwell Entertains.

Mrs. Charles E. Downey entertained yesterday afternoon at the Hill Street Club in honor of her sister, Mrs. John Westmoreland, charming recent bride.

The hostess and guest of honor, which was lovely with its vines of Clematis and roses, flower boxes and vase of blooming plants.

Mrs. Downey was served punch from a bowl encircled with flowers.

Mrs. Downey was seated in a yellow foundation and wore a hat of black tulip.

Mrs. Westmoreland was costumed in a gown with a pattern of pink tulips and rosebuds. Her hat was also of pink roses.

Sixty-five guests were entertained.

For Mrs. Hannaberry And Miss Montgomery

Mrs. Elizabeth L. Hannaberry entertained at a luncheon yesterday afternoon at the Howard theater in honor of Mrs. W. N. Hannaberry and her cousin, Miss Douglas Montgomery.

Those invited were Misses Douglas Montgomery, Mrs. W. N. Hannaberry, Miss Constance Cone, Miss Edith May, Mrs. D. B. Dill, Mrs. C. G. McCall, Mrs. Margaret Stovall, Miss Evelyn Knox, Miss Besse Mitchell, Miss Elizabeth Denby, Miss Anna Holmes, Miss Alice Chapman, Miss Billie Hawkins, Miss Anna Harriet Shearwater, Miss Elizabeth Dennis, and Miss Dorothy Moody.

In Honor Miss Brannon.

Miss Annette Gay was honored yesterday afternoon at a luncheon in her home on Myrtle street, in compliment to her guest, Miss Annette Brannon, of Talbotton.

Friends effectively arranged about the rooms where the

luncheon was held.

For Mrs. Hannaberry And Miss Mitchell's Party Indefinitely Postponed.

The tea at which Miss Besse Mitchell, Mrs. W. N. Hannaberry and Miss Mitchell's mother, Mrs. W. N. Hannaberry, were to be honored in honor of Miss Brannon, of Talbotton, the guest of Miss Annette Gay, has been indefinitely postponed due to the illness in the family of Miss Mitchell.

Mr. and Mrs. George Caldwell Spear entertained at a beautifully appointed dinner on the Capital roof Tuesday evening, celebrating their tenth anniversary since their marriage.

The place cards were timed with the names of the bride and groom and the date of their marriage.

The favors were in novelties, the centerpiece a large flower vase engraved and filled with bird's nest, and the table decorated with white tulip handles and a miniature bride dressed in a bride's bouquet. The guests were Lieutenant and Mrs. Jack Swarthout, Miss Lucille Chancellor, Captain Will Gooch, W. K. Mower and Richard Mower.

WOMEN IN HOMES AND SOCIETY

Countless women devote their whole lives to their homes, while others are in the business world, or find happiness only in society. Whether you are a home woman, a business woman, or a woman, you know how hard it is to drag along day after day suffering from one or more forms of malady or derangement that has developed from overtaxing your strength.

The natural restorative for such infirmities is the famous Vegetable Compound, which for nearly half a century has been considered a standard remedy for women's ills.—(adv.)

## Patch Work

—Atlanta has been waiting for this, at least that part of Atlanta that clings to old loves, that will still have lavender and old lace though the pavements roar outside with the clang of trolleys and raucous honk of motors, not to mention other violent noises characteristic of modern mechanical and industrial civilization.

—The past lingers ineffably in such Patch Work as this—arousing memories and opening vistas—like a brittle, faded rose found marking that page in a yellowed volume of Byron where he sings of the "Maid of Athens."

—A point of interest occurs just here. It touches the prices for this Patch Work. Through the instrumentality of our Paris office and direct importation to Atlanta, we can sell it for considerably less than had it come by New York and its grasping middlemen.

## TARIFF CONGRESS CONCLUDES MEET

Greensboro, N. C., August 16.—The southern tariff congress session here ended today with the adoption of resolutions urging a protective tariff upon southern agricultural, mineral and pastoral products equally with those of other sections and the continuation of the embargo against the importation of tobacco and the continuation of the permanent tariff on cotton.

A committee agreed upon to go to Washington and present the resolutions to the senate finance committee, left for Washington to-night.

The tariff congress also advised the president of the Southern Tariff Association, H. E. Kirby of Houston, Texas, to appoint a committee to draft schedules desired by the present and manufacturers of southern states and present them to the senate finance committee.

Mr. Kirby warned those attending the congress not to ask too much. He said, "I did them more than get nothing." Besides, he stated he did not want "friendly" senators to have to defend "indefensible" proposed tax schedules.

Among the speeches in advocacy of a protective tariff made today was one by R. E. Taylor, president of the National Mohair Growers Association. He said the mohair industry in the United States was on its way to lead American exports by 1920.

Gov. Thomas E. Campbell of Arizona, asking the co-operation of the Southern Tariff association in the Southern Tariff non-political campaign.

A letter was received from former Gov. T. C. Blanton of North Carolina, expressing regret at being unable to attend the meetings and denouncing the Fordney-McCumber bill as being inimical to the mohair industry.

In a letter written to Carl Fischer, in charge of the eastern man, Mr. Watkins writes as follows:

"You ask me certain questions which as a citizen of Atlanta you are entitled to have answered.

"First I am a member of the council when what is called the report of the buncos committee was before the house. I would have voted for the majority report."

"Your question as to the police force is a live issue. I do not believe the present force is sufficient to serve until there is a change in the system. There should be one capable head, a chief in fact, as well as the men who serve him.

"I have for years advocated such changes and have assisted when the issues have been presented in obtaining the right kind of a board and have worked for reform in our system of city government."

**Mr. Watkins' Clew-Cut Statement.**

In addition to the letter to Mr. Fischer, Mr. Watkins sends to the press the following statement over his signature:

"I have learned that my name has been presented as a candidate for councilman from the eighth ward. The many petitions I have received, however, have been coming to me for the last two weeks have shown that with practical unanimity the voters of my district desire that I should be re-elected to the service. I should have been glad if the choice had fallen on some one else. The office is one no competent man would voluntarily take, and no conscientious man would lightly decline.

"I am sending to the request of my friends, however, although it will be a personal sacrifice, I have consented to serve, if elected.

"**Charter Is Inadequate.**

"I believe that the present city charter is inadequate, and that the city council should initiate a movement whereby a representative charter is adopted. This will be done when prepared and submitted to the people before the next meeting of the legislature.

"This is a new idea with me, but one I have advocated for Atlanta for over ten years, and I hope to make effective in Houston, Texas, about twenty years ago.

"Our police system is inefficient.

"There is no public discussion of this, but forgetting the irremediable past, we should press on to better things. There should be a removal of the inefficiencies of the police system. There should be but one head to that system, and he should be given ample authority and held to account.

"What can be done with the present charter limitations to remedy the police system should be done speedily, and the new charter, when prepared, should adequately guarantee that in the future we shall have an efficient law enforcement body."

## PROTEST ENTERED BY WOMAN CITIZEN AGAINST SLEUTHS

Mayor Key is in receipt of a letter from Mrs. Virginia S. Heath, of 78 West North avenue, who, as a voter and taxpayer, protests against "turnerists" of public opinion in maintaining the present detective department, which has proved itself inefficient in small matters as well as large.

Miss Heath gives details of two instances on which she sought the aid of the detective department, one in the effort to assist in the recovery of the Barnesville bank. He is an expert bookkeeper and has had wide experience in work of that nature. He succeeded Hugh Bush, who stole the clothing to work when he came again to her home and notify

the detective department in order that he might be arrested.

"Needless to say," she adds, "this rare opportunity has not come my way."

### KEEP IT UP!

On Monday the police of Atlanta  
made a total of 310 cases against  
alleged traffic law violators; and  
during the same day 210 cases of  
alleged traffic law-breakers were  
disposed of in recorder's court, the  
cases having been made during  
Saturday night and Sunday.

The work was even heavier yes-  
terday.

This encourages the hope that  
human life will be safer, and that  
the rights of citizens will be more  
generally recognized on the streets  
of Atlanta in the future than they  
have been in the past.

This wholesome demonstration  
of law enforcement goes to show  
what can be done by the police in  
apprehending violators and bring-  
ing them to book; and it is safe  
to predict that so long as the au-  
thorities continue keyed up to the  
present pitch of determination to  
enforce the law the number of  
violations will diminish day by  
until a normal, orderly, basis is  
reached.

The police are right in arresting,  
and the recorder is right in pun-  
ishing, every offender against the  
city or state traffic ordinances, for  
any one who violates the law that  
is made for the protection of the  
public ought to be made to pay  
for it.

The only danger is that this  
much to be commended diligence  
will decrease and that conditions  
may thus revert to the old status  
of non-enforcement.

This should be guarded against!

Eternal vigilance is not only the  
price of liberty, but in this in-  
stance it is the only guarantee of  
safety on the streets of the city.

Keep up the good work!

It brings money into the city  
treasury; but of vastly more im-  
portance, it reduces the life and  
limb hazard on our streets, and  
this is the only way that such se-  
curity can be established.

### GAINING GROUND.

In the last week press dis-  
patches have recorded a series of  
instances going to show that the  
sentiment in behalf of law and or-  
der dealing with capital crimi-  
nal cases in the south is gaining  
ground.

One had to do with the artful  
protection afforded two prisoners  
by Sheriff Plunkett, of Richmond  
county, Ga., a few days ago, the  
sheriff, at the peril of his own  
life, spiriting away to the Chatham  
county jail the men who were  
wanted for murder in South Caro-  
lina, and who were sought by an  
infuriated mob of citizens of that  
state.

A similar occurrence was re-  
ported in the Constitution yester-  
day morning from Centerville,  
Ala., where a mob sought to visit  
summary justice upon a negro ac-  
cused of a heinous crime, but was  
deterred by prompt and vigorous  
action on the part of the state  
militia.

On the same day a negro mur-  
derer was taken into court at  
Greenwood, S. C., tried, found  
guilty and sentenced to death in  
the space of two hours!

This Georgia sheriff, the Ala-  
bama authorities, and the court  
officials in South Carolina, all were  
backed up by public sentiment else-  
what was done in either of those  
instances would have been impos-  
sible—for public sentiment is all-  
powerful in a democracy, and  
nothing can be done in opposition to  
it!

Instead of lynchings in these  
three instances, the majesty of the  
law was upheld and defended in  
each instance, justice being per-  
mitted to take its course.

How much better it is that  
events took the course they did in  
these three typical cases than for  
passion and blind lust for blood  
and the spirit of the mob to have  
been given free rein!

Such demonstrations of fear-  
lessness and resourcefulness and  
fidelity to duty—butressed by as-  
surance of support by the decent  
element of the people—give hope-  
ful indication that the time is not  
far distant when lynching in the  
south will give way to law and  
order.

Prosperity's at the door, and the  
latchstring's on the outside.

No matter how Washington "re-  
duces expenses," it's never so  
that the taxpayers can notice it.

Those Turks don't seem to know  
how to spell "defeat." They are  
merely "retreating to unprepared  
positions."

If that X-ray contraption that is  
designed to take a picture through  
a wall is a success where will the  
home-breeder hide the hootch?

The prohl-sleuths are so hot  
after the booze-boats their cap-  
tains are shouting: "Pull from the  
shore, sailor, pull from the  
shore!"

All the recent ex-kings who  
helped make trouble for the world  
are lucky to have homes in it now,  
with well-supplied tables.

They may be "hard up," as for-

mer kings may look at it, but they  
are living in unmerited clover.

### FOR MORE VIADUCTS.

With the proposed Spring street  
viaduct matter practically out of  
the way, so far as the work of  
planning goes, the city planning  
commission will do well to act in  
accordance with the suggestion of  
an open letter to it from H. H. Dean, which we reproduce  
elsewhere upon this page, and an-  
ticipate the construction of other  
viaducts over the railroad between  
the Whitehall and the Washington  
street viaducts.

As Mr. Dean points out, while  
the opening of Spring street as a  
through avenue of traffic con-  
necting the north and south sides  
of the city will do much to relieve  
the traffic congestion in the down-  
town districts, Atlanta is growing  
so rapidly that it will be only a  
question of a short time until there  
will be as great a need for addi-  
tional viaducts as there is now for  
the one about to be built. Indeed,  
such need already exists, and the  
Spring street improvement will  
only measurably relieve the exist-  
ing congestion.

The main value of a planning  
commission rests in its capacity  
to visualize the future, to look  
ahead, to anticipate civic needs,  
and to plan and be ready for them  
when they arise.

While there is need right now  
for through street facilities in ad-  
dition to those in use or proposed,  
nothing can be done, perhaps, to  
meet that need until after the  
Spring street project has been  
completed.

But that fact does not prevent  
the city planning commission from  
thinking about the future and ten-  
tative plans for additional im-  
provements so as to have the pre-  
liminary work of planning ready  
and out of the way once they are  
authorized by the people.

The time is not far distant when  
grade crossings in Atlanta, espe-  
cially in the congested downtown  
sections of the city, will have to  
be entirely eliminated.

This will have to be done both  
as a means of expediting vehicular  
communication and of reduc-  
ing the accident hazard.

**THE LONG WAIT.**  
"The trouble about these home  
brew recipes," says Davis, of The  
Arkansas Gazette, "is the ingredient  
reading as follows: 'Let see three  
weeks.'"

## NEGRO BUSINESS LEAGUE CONVENES

### Value of Eastern Division Of Dixie Highway Stressed In Address by Dr. Boswell

The opening session of the twenty-second annual meeting of the National Negro Business League will be held at 10 o'clock this morning at the Bethel A. M. E. church, corner of Auburn avenue and Butler street. The session will be devoted largely to discussions of subjects pertaining to the real estate business and farming.

The evening session will be held at the Auditorium-Armory at 8 o'clock. The features of this session will be the welcome address by James L. Key, mayor of the city, and the annual address of Dr. Robert R. Moton, president of the National Negro Business League and the principal of the Tuskegee Normal and Industrial Institute.

The National Negro Business League was founded twenty-two years ago by Dr. Booker T. Washington. The purpose of the organization is to promote the financial and economic development of the negro. For a period of fifteen years its home was headed by its founder and his successor, J. C. Noland. Nashville, Tenn., was made president, which office he held for two years when the mantle fell upon the shoulders of the present president, Dr. Robert R. Moton.

Dr. Moton arrived in the city Tuesday morning and in an interview said: "The National Negro Business League has become an asset to negro business and a constructive force in the advancement of the economic progress of the race. The sessions have been held in various cities of the country, furnish a source of information and inspiration the value of which cannot be measured. Negro men look forward to them with enthusiasm and zeal. From the inspiration thus gained have sprung many business organizations which are a credit to the race and which are real contributions to the economic progress not only of the race but of America."

Delegates to the convention have been coming in on every train and from all parts of the country. Among these men are represented practically every field of business endeavor. The sessions will continue until the day of the final session, being held Friday afternoon. On Saturday at the invitation of Dr. Moton and the faculty of the Tuskegee Normal and Industrial Institute the delegates will visit forty years ago by Dr. Booker T. Washington. The local committee of the league extended a cordial invitation to all to attend the sessions.

The local committee under the direction of Dr. J. C. Noland, Dr. Ross; Charles Shaw, secretary, and S. Abram, the executive secretary, have spared no pains to make this the most successful session ever held in its history. The headquarters are located at the colored Y. M. C. A. where all of the delegates report for the assignment of the rooms.

A banquet was served Tuesday evening to the national officers and members of the executive committee by the Atlanta officials at the Odd Fellows root garden.

### LOTS WORTH \$50,000 SOLD IN FERNWOOD, A NEW SUBDIVISION

Fifteen new residences are now under construction in Fernwood, a new subdivision located near Oglethorpe university and Brookhaven Country club, and since the subdivision was opened June 1, \$50,000 worth of lots have been sold, it was announced Tuesday by Chambers & Co., developers of the property. Chambers & Co. recently moved their offices from the Citizens and Southern Bank building to an office building located on the property.

Fernwood is located on the Southern railway at the junction of four important highways and is fast developing into a suburban center.

### \$2,500 IN BONDS AND CASH STOLEN BY CLEVER YEGGS

Yeggs entered the store of the A. P. Morgan Grain company, in Oakland City, early Tuesday and, after blowing up and physically destroying a large safe, escaped with approximately \$2,500 in cash and Liberty bonds, it was reported to police Tuesday.

Police said that nitroglycerin was used as the explosive and the general manner in which the job was executed indicated the work of experts. The explosion was muffled by huge piles of grain sacks.

### UNSETTLED WEATHER FORECAST WEDNESDAY

Unsettled weather with probable showers is the forecast for Atlanta Wednesday by the local weather bureau. Tuesday morning the temperature dropped to 61, the lowest Atlanta has seen since June 1. At 2:15 o'clock in the afternoon it was 78, giving a mean temperature of 71. In all probability Wednesday will be warmer.

### Freak Vegetable Contest Closes; Editor Is Happy

With more than a dozen entries of twin, triplet and quadruple vegetables entered Tuesday, many of which were sent in from the Atlanta curb market by Mrs. Norman Sharp, the freak vegetable contest came to an official close Tuesday night.

Closing of the contest came suddenly when it was found that there was not sufficient room in the editorial department to take care of the stream of vegetables flowing in and particularly because the editors, sporting editors, editorial writers, reporters, society editors and others who work on the same floor began to hint about installing cold storage facilities or else calling for the public health officers to declare the entire contest off limits.

First prize in the contest consisting of a handsome non-refillable finger bowl goes to H. Adamson, 10-year-old boy from Carrollton, a cornish corn boy who sent in a stem of corn containing nineteen ears. Previous to this a fifteen-stemmed stalk had been exhibited and several stems containing as many as ten ears.

The nineteen-stemmed prodigy was considered marginally the largest ever grown and to prove the fact that there are such things in this world as nineteen-stemmed corn.

## GOVERNOR VETOES TOBACCO REFUND

Governor Hardwick Tuesday vetoed a bill passed by the legislature to reimburse certain merchants for tobacco taxes collected in 1920 and also vetoed a bill granting certain concessions to mutual insurance companies.

In vetoing the tobacco tax bill the governor said:

"This measure is disapproved. If the treasury of the state was only required to pay back what it received, upon proper showing, I should毫不犹豫地 approve it. But I cannot go further. The comptroller general under existing laws can refund all taxes illegally collected. Further than that I cannot go."

In vetoing the law relative to the mutual insurance companies the governor acted on the information obtained from General W. J. Wright, state comptroller, who declared laws repealing certain of the concessions desired were passed many years ago by the legislature.

The governor took no action Tuesday on a bill providing that the Bible shall be read in the public schools of the state or on a bill providing for a definition of interurban railroads.

## Scores McCalley For Destruction Of Affidavits

Mrs. A. G. Helmer, candidate for membership on the board of education from the fifth district against Commissioner W. L. McCalley, who is running for re-election, scored her opponent Tuesday for his actions in destroying the Riordan affidavits and failing to give them contents to Miss Riordan and to the public.

"Those affidavits belonged to the people," said Mrs. Helmer, "and should have been saved for the public."

Mrs. A. G. Helmer, candidate for membership on the board of education from the fifth district against Commissioner W. L. McCalley, who is running for re-election, scored her opponent Tuesday for his actions in destroying the Riordan affidavits and failing to give them contents to Miss Riordan and to the public.

Since the city manager's office has been established on a permanent basis, however, the results have been satisfactory that only one city government has abandoned the plan."

He also pointed out that the city manager's office is established on a charter basis.

## Experts Believe Stocks Down to Bottom Prices

BY R. L. BARNUM

New York, August 16.—Oil, steel and railway equipment shares had sinking spells during the first two hours of trading today, and then around 1 o'clock started to recover the early losses. The general feeling in quarters usually well informed is that the steel shares will sell lower before the final turn for the better comes. It is also believed that there will be some passing or reducing of oil dividends.

Beyond question, there is a very large short interest outstanding in the industrial stocks. It is also safe to assume that this short interest will be increased. The outside public is taking the short side of the stock market to the extent that one close observer remarked today: "In playing the short side in industrial stocks the public is showing as much shrewdness as an Oriental rug dealer." The same authority added: "In my opinion the very large outstanding interest in the market is going to be increased and nursed along for some weeks to come. But it will never be allowed to get away. For weeks after the turn for the better really comes there will be a lot of news calculated to encourage the shorts to hold their position. There will be enough news to keep the market looking sick. But it will deal with the past. In my opinion those who go short of the market when we get our next break will take on a load that few will be able to carry without heavy losses."

### Man That Talks Loud.

At this point the speaker was interrupted with the question: "What about Livermore, the leader of the bear crowd?" Here was the answer:

"No one need worry about Livermore. He is talking loud now about two years more of bad business. But he learned long ago not to fight the market. He is short now all right. But the very minute prices begin to go against him he will turn and run with the market."

Secretary of Labor Davis informed the senate today that there were now unemployed in this country 5,725,000.

Rails held firm today in the news from Washington that the senate committee on interstate commerce had decided to end the hearings on the proposed bill giving the carriers financial assistance and speedily pass the law demanded by President Harding.

There will be two sugar company dividend meetings tomorrow. Cuban-American is expected to pass its fifth quarterly payment. Three months ago the rate was cut in half. National Sugar, now paying 10, is expected to cut or pass its payment. American Sugar owns \$2,428,000 of the stock of the company. All of the sugar companies are experiencing the same trade conditions.

Next month \$6,414,000 corporation securities will fall due against \$85,100,000 this month—\$103,707,000 in September of 1920. The railroads will have \$2,764,000 bonds coming due. The largest single issue maturing in the \$39,199,000 3-year 7s of the Interborough Rapid Transit company. This issue will probably be extended for a year at 8 per cent interest.

### Tax Bill Disappoints.

Wall street was disappointed at the change in the tax bill making the date of the excess profits and high surtax repeal January 1, 1922, instead of January 1, 1921. The street believes firmly that there will be no revival in trade until this load is lifted from business and rich men.

Republic Iron and Steel, it was reported today, is now operating at 40 per cent of capacity against 15 per cent for the second quarter, and an average of 25 for the first six months of the year.

Marks made a new low record for the year early today, selling at 1.06 cents against the previous par of 24 cents. This compares with the low for all time of 1.01 cents made last January a year ago. The wild speculation which is going on in Berlin on the stock exchange is based on the decline in marks. As marks decline here it takes more marks in Germany to buy the same amount of goods, which means that prices are rising. And rising prices always encourage speculation. The buying of stocks is based on the belief that with rising prices of commodities there will be larger profits. That remains to be seen.

On Eve of Hearing, Paul Demos Issues Statement Explaining Situation.

Atlanta Greeks will assemble on the sixth floor of the courthouse Wednesday morning to hear their church differences argued before Judge George Bell, of the Fulton superior court. There will be no postponement of the litigation, although Archbishop Meletius has claimed to be metropolitan of the church at Athens, advised them to await the verdict which will be rendered in October on the case between Bishops Alexander, of Rodostolou, and Germanos Troianos.

Paul Demos, counsel for Bishop Alexander, was in Atlanta with Archbishop Meletius and before leaving the city Tuesday afternoon made a statement on the dissension which divide the Greek Orthodox churches abroad and in America. Mr. Demos is an attorney-at-law, admitted to practice before the courts of Illinois and the U. S. supreme court. He is also a mem-

ber of the faculty of the Chicago Law school.

His statement follows:

**STATEMENT OF DEMOS.**  
The existing unfortunate controversy among the members of the Greek Orthodox church in several of the cities of the United States, Canada and Britain, the religious differences of faith in creed, but the simple fact that the monarch of a kingdom five thousand miles away defines the church very clearly when he swears allegiance in his coronation oath by sheer brute force elected the ecclesiastical head of the church, and is now demanding of all American citizens of Greek birth or descent that they shall cast their lot with their church, shall cast out those who for years have served them with pious fidelity, and as far as possible deny all Christian fellowship to the venerable bishop and venerable metropolitan whom they have learned to revere and love, and against whom character has been uttered.

King Constantine has taken a lesson from the worst practices of the worst days of papal political power, and the application of the same to the Greek Orthodox church is the only true belief of the church. As far as the true belief of the church is concerned, it is Bishop Alexander, that the latter derived his authority from the Emperor of Constantinople, and the congregation and their pastor now remain in undisturbed possession.

The Bishop of Macedonia, claim that he was appointed thereto by Bishop Germanos Troianos, and the Bishop of the Greek Orthodox church in America.

To this the congregation replied that the worst practices of the worst days of papal political power, and the application of the same to the Greek Orthodox church is the only true belief of the church.
